SUMMARY

Full Stack Developer with over a year of experience in designing and developing end-to-end web applications using Angular, Node.js, and AWS. Proven track record in developing front-end website architecture and back-end applications that enhance performance and responsiveness. AWS Certified Developer with expertise in designing APIs, consulting on technical requirements, and managing cloud-based solutions to meet both technical and consumer needs.

SKILLS

Frontend: Angular, React.js, TypeScript, JavaScript, Next.js

Backend: Node.js, Express.js, PHP 8,

Databases: MySQL, PostgreSQL

Tools: Git, Postman

PROFESSIONAL EXPERIENCE

Full Stack Developer

Apr 2026 – Present

ITTSTAR Global Services • Pune, India

- Created 8+ responsive Angular and Next.js frontend interfaces focused on authentication and profile management, improving responsiveness of applications and elevating navigation efficiency by 30%.
- Engineered and deployed over 10 secure RESTful APIs with Node.js and Express.js, optimizing backend communication and decreasing unnecessary server requests by 25%.
- Revamped and aligned legacy MySQL database schemas to optimize back-end website applications, achieving a 40% reduction in query response times.
- Directed comprehensive development of real-time chat feature using socket.io, managing all phases from initial concept to completion for 50+ concurrent users.
- Coordinated with graphic designers to deploy web design features and user interactions that boosted technical performance and consumer engagement.

Full Stack Developer Intern

Jul 2025 – Mar 2025

ITTSTAR Global Services • Pune, India

- Collaborated with cross-functional development teams to build 5+ dynamic, API-driven notification templates using Angular, enhancing project milestone delivery speed by 15%.
- Built Node.js RESTful endpoints to generate filter-based Excel reports, reducing manual HR reporting effort by 40% and meeting specific consumer data needs.
- Optimized PostgreSQL queries for employee performance goal reporting, accelerating data retrieval times by 10% for the back-end architecture.
- Debugged and resolved structural defects across 5+ asset management workflows, improving application stability and reducing issue resolution turnaround time by 25%.

CERTIFICATIONS

AWS Certified Developer Associate

Nov 2025 – Nov 2028

Amazon Web Services

Earned credential with a validation score of 824/1000, demonstrating proficiency in cloud deployment, security, and AWS core services.

EDUCATION

GITAM University

Jul 2021 – May 2025

Computer Science and Engineering (CSE) | Bachelor of Technology (B.Tech)

GPA: 8.3 / 10

Bangalore, Karnataka, India

ACHIEVEMENTS

2nd Place in the B.Tech Capstone Project Competition

Mar 2025

Gitam Project exhibition - 2025

Secured 2nd Place in the B.Tech Capstone Project Competition among 60+ engineering participants for outstanding technical innovation and full-stack implementation (2025).
